

And if your fungal strain

?

was in our collection

BCCM GREAT AT SMALL THINGS

bccm.belspo.be

If your strain was with us...

...it would be kept safely in an independent professional and certified environment using optimized methods of long term preservation, in compliance with Nagoya Protocol.

We offer you three possibilities to deposit your strain:

● Public deposit

- Preserve your strains for free
- Promote science by sharing your strains with researchers worldwide
- Make your scientific work more visible and increase your citations
- Benefit sharing in case of profit use

● Safe deposit

- Preserve your strains at low cost under confidential conditions
- Viability regularly monitored

● Patent deposit

- Fulfils the requirements of the Budapest Treaty concerning patent applications involving microorganisms

... IN PRACTICE

- Please **contact us** to confirm that the material is within our scope and technical capability
- Consult bccm.belspo.be/docs/deposit-forms to complete the **BCCM/MUCL** accession or contract forms
- Send your fungal strains and the completed documents
